## 💬 Professional Summary

A highly motivated and proactive individual with strong communication and leadership skills. Passionate about using technology and education to solve real-world problems, especially those affecting underserved communities. With hands-on experience in customer relations, digital tools, and social impact initiatives, I am eager to contribute meaningfully to dynamic organizations and drive positive change across Africa and beyond.

## 🎓 Education

### Bachelor of Software Engineering (Ongoing)

*African Leadership University, Kigali – Rwanda*

📅 September 2024 – Present

### High School Diploma

*Saint Ignatius High School, Kibagabaga – Rwanda*

📅 February 2020 – August 2023

## 💼 Experience

### Teacher Assistant

*First Impressions International School – Kigali, Rwanda*

📅 January 2024 – September 2024

- Assisted lead teachers in delivering lessons for primary-level students
- Provided one-on-one support to students needing extra help with reading, writing, and basic math
- Helped organize class materials, manage classroom behavior, and maintain a positive learning environment
- Supported the planning and supervision of extracurricular activities and learning games

- Communicated regularly with teachers and parents to ensure student progress and well-being

### **Sales Associate**

*Imena Trades – Kigali, Rwanda*

 October 2023 – January 2024

- Maintained and resolved sales and inventory data in a retail management system
- Handled daily customer purchases and promoted key products
- Supported accurate reporting for stock movement and reorder points

### **Software Development Intern**

*Tiger Soft Ltd – Kigali, Rwanda*

 July 2023 – August 2023

- Collaborated with the software engineering team to support the development of web-based applications
- Participated in testing, debugging, and code documentation
- Learned how to set up basic computer networks and connect multiple devices in a local environment
- Contributed to the successful deployment of a small website, gaining real-world experience with hosting and publishing
- Gained practical skills in HTML, CSS, JavaScript, version control (Git), and Agile workflows

### **Core Skills**

- **Digital Skills:** Inventory software: Python/ JavaScript/HTML/CSS, MS Office Suite, typing (45+ WPM)
- **Communication:** Verbal and written communication in English and Kinyarwanda very fluent
- **Problem Solving:** Tackles challenges independently and with a team
- **Time Management:** Ability to prioritize tasks and meet deadlines
- **Leadership:** Comfortable taking initiative and leading small teams or school projects

## Languages

- **Kinyarwanda:** Native
- **English:** Advanced
- **French:** Intermediate

## Bio (Optional for Portfolio/LinkedIn Use)

I am Maurice NSHIMYUMUKIZA, a forward-thinking young Rwandan shaping myself to be a Software Engineer with a deep commitment to transforming African communities through innovation and ethical leadership. I believe that every solution begins with understanding people—and I aim to use technology to serve, uplift, and connect societies across borders.
